Student Reviews

Aditya Pratap Singh

Classes at ThePilot.in were very smooth and the teachers were very helpful. They were 24/7 available for clearing any doubt. The mock questions prepared by them helped me a lot in understanding the concept and the pattern of the DGCA papers. Overall the environment was very friendly and positive.

ThePilot.in classes were genuinely very helpful for my preparation. The instructors explained concepts clearly and were always patient while solving doubts. The classes were easy to follow and made difficult topics much simpler to understand. The mock tests and question bank were especially useful because they gave good practice and helped me understand the exam pattern better. Overall, the learning experience was really good and it helped me feel much more confident while preparing.

Grateful to ThePilot.in for being a constant support throughout my aviation journey. From DGCA ground classes and exam preparation to helping me choose the right flying school, their guidance was invaluable. They made the entire visa process smooth and ensured a seamless transition to the US to begin my training. Even during flight training, they assisted with scheduling and connecting me with a great instructor. It hasn't been an easy journey, but their support and mentorship made all the difference. Proud to share that I've now completed my Private Pilot License at US aviation Academy I would highly recommend ThePilot.in to aspiring pilots!

Sritama Banerjee

I'm incredibly grateful to my ground school for their constant support and guidance throughout my journey. Their dedication, quality of teaching, and genuine effort for every student truly make them stand out. and I'll soon be heading to the US for flight training. Thank you for being an important part of this milestone and helping me move one step closer to my dream of becoming a pilot. 🏆 Love you Pilot.In 🙌
